Muhammad Ramzan

Website Developer

Hi, I'm Muhammad Ramzan, a Web Developer with over one year of experience in the field of website development. I have worked on several projects for different clients, creating websites using technologies such as HTML5, CSS3, Bootstrap 5, JavaScript and PHP. My expertise lies in crafting user-friendly and engaging web experiences that meet both client and user needs.

WORK EXPERIENCE

HubSol Technologies Pvt Ltd

Dec - 2022-2024

Front-End Developer

- Design and implement user interfaces for websites using HTML, CSS, BOOTSTRAP, and JavaScript.
- Ensure that the websites you develop work seamlessly across various web browsers.
- Create websites that are responsive and adapt to different screen sizes, including mobile devices and tablets.
- Work closely with UI/UX designers to translate design concepts into functional and visually appealing web pages
- Write efficient and optimized code for better website performance and faster loading times.
- Collaborate with clients to understand their requirements and provide technical support during the development process.
